

ABSTRACT

CREATIVE PROJECT: Visual Representation of the Nature of Existence

STUDENT: Camille Marie McPhee

DEGREE: Master of Arts

COLLEGE: Fine Arts

DATE: July 2012

PAGES: 27

This project is an overview of aspects of the experimental sciences as they relate to specific spiritual philosophies. This project culminates in a visual representation of the underlying duality of the universe. The information presented suggests there is a continuum of duality that is in a constant state of flux or change that exists within the nature of the universe. Painting techniques are employed to visually represent the ideas of duality, fluctuation, and change within the exhibition project.
